PRESS RELEASE

With the addition of two new production lines, Eagle Flexible Packaging makes a strategic investment in a new state-of-the-art manufacturing facility in Batavia, Illinois.

*Eagle sets its sight on **Operational Excellence** initiatives through new workflow optimization made possible by the new facility.*

Batavia, IL August, 2010: "Investing in state-of-the-art technologies in prepress and manufacturing equipment has enabled us to improve our quality and turnaround times. There aren't many opportunities to start with a clean canvas in manufacturing; we look forward to taking advantage of this opportunity to design the workflow

1100 Kingsland Drive, Batavia, Illinois

and plant layout with maximum efficiencies in mind," says Frank Vacca, President. It is Eagle's mission to deliver superior value to its customers and we continuously look for ways to exceed our customer's expectations through innovation, quality, and service. "The efficiencies gained in the new facility will undoubtedly enable Eagle to continue our mission of exceeding our customer's expectations," states Tom Tyndall, Vice President/General Manager.

This investment signifies Eagle's move to continue their current growth trends while looking strategically at future needs. Over the last 4 years Eagle has expanded its space at its current location, and invested heavily in state of the art technology. This new facility will house Eagle's entire team – sales, marketing, operations, finance, prepress and most importantly, manufacturing.
