# PRESS RELEASE

## Eagle Flexible Packaging joins Sustainable Packaging Coalition.

**West Chicago, IL April, 2010:** Eagle Flexible Packaging has joined the Sustainable Packaging Coalition (SPC) – industry leading sustainability council; a project of GreenBlue. ([www.sustainablepackaging.org](http://www.sustainablepackaging.org)) “Being part of SPC and their initiatives just makes sense to us – we continue to analyze our product line and processes to offer sensible, solid, environmentally conscientious flexible packaging solutions to our customers,” said Tom Tyndall, Vice President/General Manager.

NVIRO® Flexible Packaging pairs our water-based inks and adhesives (low VOC's; less than 3%) with renewable materials to provide best-in-class packaging options to have a low impact on the environment throughout the product's Life Cycle. “83% of film scrap at Eagle is recycled and 100% of ink waste is converted – waste to energy. Being part of SPC gives us the opportunity to learn from other packaging manufacturers' best practices on lowering their carbon footprint,” says Frank Vacca, President.

To learn more about Eagle Flexible Packaging's capabilities and products, visit us online at [www.eagleflexible.com](http://www.eagleflexible.com).

### **About Eagle Flexible Packaging**

Eagle Flexible Packaging is a US printer and converter of flexible packaging including, but not limited to: eight-color printed roll fed film for form, fill, and seal machines, preformed pouches, zippered pouches, stand up pouches, shrink sleeve labels, NVIRO® Flexible Packaging, laminating, slitting and rewinding, pre-press, and printed Inno-Lok® resealable roll stock.
